

# BIOMETRIX CPT

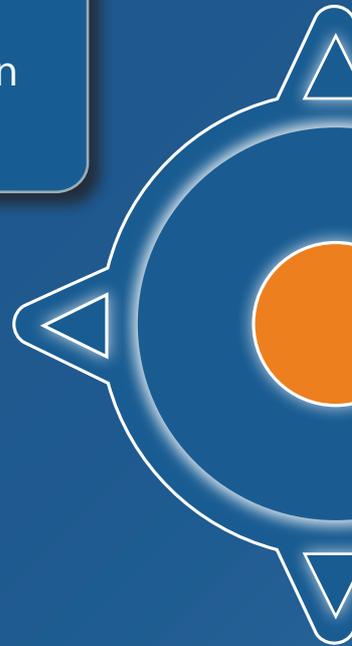

## Custom Procedure Tray for Angiography / Heart Pacemaker

Biometrix's innovative and fully customized angiography/heart pacemaker custom procedure tray complies with cardiologist specifications, ensuring the highest level of performance and reliability, during procedures at healthcare facilities and cath labs.

Committed to quality solutions, the tray includes the complete product portfolio of sterile single-use components, from precision devices to draping systems and accessories.

With a proven track record and vast experience in angiography, our customers can:

- Manage emergency cases quickly and confidently
- Reduce cost and setup time of overall procedures
- Simplify and quicken stocking and restocking
- Maximize infection control with sterile single-use products
- Save space and minimize waste with compact packaging

## You are just a few steps away from your individual user-friendly Biometrix CPT Angiography / Heart Pacemaker:

1. Choose the components you require from the product list.
2. Review the (non-sterile) sample tray, provided for your convenience.
3. Discuss proposal and receive contract offer.

Biometrix offers an extensive choice of first class components, allowing you to create the optimized tray and save your organization time, money and hassle.
