

BIOMETRIX CPT

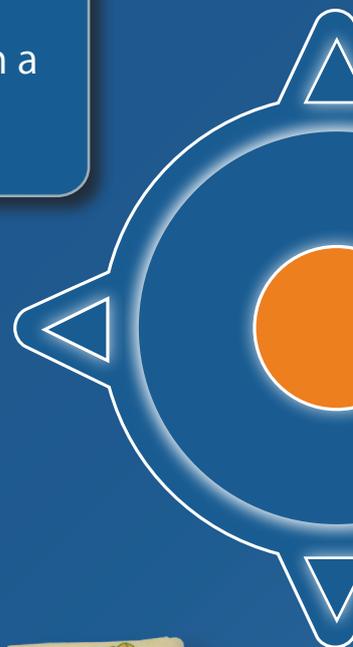

Custom Procedure Tray for Obstetrics & Gynecology

Biometrix CPT Obstetrics & Gynecology includes the full line of medical devices for obstetrics and gynecology procedures in operating and delivery rooms.

Comprised of Biometrix's exclusive single-use components, and tailored to answer your individual needs, the tray enables you to remain focused on your patient and offer immediate treatment in a completely sterile environment.

Biometrix CPT Obstetrics & Gynecology provides a reliable and efficient procedure tray, ensuring high performance and significantly reducing overall surgical procedural expenses:

- Manage emergency cases quickly and confidently
- Reduce cost and setup time of overall procedures
- Simplify and quicken stocking and restocking
- Maximize infection control with sterile single-use products
- Save space and minimize waste with compact packaging

You are just a few steps away from your individual user-friendly Biometrix CPT Obstetrics & Gynecology:

1. Choose the components you require from the product list.
2. Review the (non-sterile) sample tray, provided for your convenience.
3. Discuss proposal and receive contract offer.

Biometrix offers an extensive choice of first class components, allowing you to create the optimized tray and save your organization time, money and hassle.
