

# BIOMETRIX CPT

## Custom Procedure Tray for Ophthalmic

Biometrix CPT Ophthalmic is composed of quality single-use surgical devices, customized to answer surgeons' requirements for specific ophthalmic procedures, as well as ensure quick and effective treatment in a completely sterile environment.

Biometrix CPT Ophthalmic provides a reliable and efficient procedure tray, ensuring high performance and significantly reducing overall surgical procedural expenses.

- Manage emergency cases quickly and confidently
- Reduce cost and setup time of overall procedures
- Simplify and quicken stocking and restocking
- Maximize infection control with sterile single-use products
- Save space and minimize waste with compact packaging

## You are just a few steps away from your individual user-friendly Biometrix CPT Ophthalmic:

1. Choose the components you require from the product list.
2. Review the (non-sterile) sample tray, provided for your convenience.
3. Discuss proposal and receive contract offer.

Biometrix offers an extensive choice of first class components, allowing you to create the optimized tray and save your organization time, money and hassle.
